Where said meter or meters have been installed for a period of less than one (1) year, or where less than twelve (12) competent readings exist, such average or estimate may be based upon a lesser number than twelve (12) readings taken preceding or subsequent to such incorrect or stopped registrations. The Village agrees to maintain and operate said reservoir or reservoirs of such capacity that water will be drawn from the City's mains at a substantial uniform rate of flow, as hereinafter provided during the period of this contract.

(14) The water supply furnished and taken hereunder shall be drawn by the Village at a substantial uniform rate of flow throughout twenty-four (24) hours of each day of the year.

It is hereby agreed that the Commissioner of Water and Sewers of the City and his authorized representatives shall have access to and the right to adjust and control valves and meters in order to limit the flow of water as herein provided and for the purpose of meeting any and all emergencies and necessitous requirements.

(15) The Village agrees to comply with any and all sanitary regulations of the City and the present and future rules, regulations and instructions of the Department of Water and Sewers of the City applicable to cross-connections and dual water supplies as are in force in the Chicago Water System. The Village further agrees that the duly authorized engineers and inspectors of the City, in collaboration with the representatives of the Village shall be allowed to make inspections and require tests for tightness of the piping of the water works installations, and of all plants or other buildings of water users within the territorial limits of the Village and the Village further agrees to make such changes in its piping and to eliminate such cross-connections or other connections as in the judgment of the Commissioner of Water and Sewers of the City are necessary. The failure, neglect or refusal on the part of the Village to make promptly

and properly such changes in its piping, to maintain tightness or to eliminate undesirable connections upon notice in writing so to do from said Commissioner of Water and Sewers, shall furnish sufficient grounds for the City to shut off the water and discontinue the service hereunder until changes and corrections in said piping or connections required by the City are made by the Village.

(16) The Village agrees to prevent excessive use and waste of water.

(17) The Village agrees to appropriate annually sufficient money or so much thereof, as may be necessary, to provide sufficient funds for the payment of the water furnished by the City hereunder. The Village further agrees that it will at all times charge its water consumers sufficient rates in order to provide adequate funds for the payment of water furnished it by the City.

(18) It is further agreed that the City may either in law or equity, by suit, mandamus or other proceedings, enforce or compel performance of any and all covenants herein contained.

(19) In order to safeguard its water supply received hereunder and the City's water supply, the Village hereby agrees to maintain a safe water supply throughout its system and to provide, maintain and operate at all times during the period of this contract, chlorinating equipment or other equally effective health protecting process equipment of such kind and capacity that a proper chlorine residual or similarly effective result may be carried throughout its water supply system. All proposed water works improvements, which must be approved by the Commissioner of Water and Sewers of the City, shall be disinfected in accordance with the requirements of the Department of Water and Sewers of the City; said water works improvements shall not be placed into service until approved as to sanitary quality.

(20) The City may adopt any protective or health measures it deems advisable or desirable for the benefit of its water consumers, such as the fluoridation of its water, in any manner that the Commissioner of Water and Sewers of the City shall see fit.

(21) The Village agrees to notify the Commissioner of Water and Sewers of the City as promptly as possible of all emergency and other conditions which may directly or indirectly affect the quality of the water received hereunder and the City's water supply and further agrees that the duly authorized Engineers and Inspectors of the City shall be allowed to make inspections and required tests of the quality of the water supply as received hereunder, as well as the quality of the water within the Village distribution system.

(22) The Village agrees not to resell or permit any water furnished hereunder to be used to supply any other municipality or any consumer of water located or residing outside the corporate limits of the Village, except if and when it should be specifically authorized so to do by the City Council of the City.

(23) The Village agrees to use City water exclusively during the period of this contract.

(24) The Village further agrees not to sell, lease or give any interest in or right or privilege to utilize its water supply main or mains to any other municipality or any consumer of water whose premises are located outside the corporate limits of the Village, and further agrees not to permit any connection to be made to its water supply main or mains, except to supply consumers within the corporate limits of the Village without first securing the consent in writing of the City Council of the City so to do.

(25) At the end of each calendar year during the term of this contract and not later than March 31st of each year, the Village agrees to submit to the Commissioner of Water and Sewers of the City a report in writing showing in cubic feet or gallons the amount of water furnished the Village and the amount in quantity and charges billed by it to consumers during the preceding year and to furnish such other information regarding billing, collections and delinquencies as may be requested from time to time by said Commissioner of Water and Sewers.

(26) At the end of each billing period, but at least quarterly, the Village agrees to submit to the Commissioner of Water and Sewers of the City a complete list of all water consumers of the Village located or residing outside its corporate limits, showing name, location, character of occupancy, amount of water in cubic feet of gallons furnished, charges billed and payment to the City of Chicago at the higher rate.

(27) To secure prompt payment of the water bills, the City shall have the right at any time to require the Village to pay in advance a sum of money estimated by the Commissioner of Water and Sewers of the City to be equal to the cost of water required by the Village, for a period of ninety (90) days at the then prevailing metered rate, which said advance payment the Village hereby agrees to make upon demand.

(28) The City shall not be responsible in damages for any failure to supply water or for interruption of the water furnished hereunder. The Village agrees to save and keep harmless the City from all damage to real and personal property occasioned or caused by the making of the water connection or connections herein referred to or caused by the furnishing of water hereunder, and shall also keep and save harmless the City from all damage of any kind, nature and description which may arise as the result of the making of this agreement.

(29) The City reserves the right to its Commissioner of Water and Sewers to decide all questions arising as to the proper performance of this contract.

(30) In furtherance and not in limitation of this contract, it is mutually agreed that all rights of the City and the Village under the water supply contract No. 16798 dated August 3, 1953 by and between the City of Chicago and the Village of Summit and all rights of either party arising from the delivery of water prior to the date of the execution of this agreement are extinguished, except for the express reservation of the right of the City to obtain for, or to enforce collection of any unpaid water charges accruing prior to the date of execution of this agreement.

(31) If the Village shall refuse, neglect or fail to pay promptly the water bills rendered for the water supplied it hereunder within the time or times prescribed by the Ordinances of the City, or if the Village shall fail to comply with or perform any of the conditions or obligations on their part to be complied with or to be performed hereunder, and if after such failure the City shall deliver at the Village Hall of the Village addressed to the President and Board of Trustees of the Village a notice in writing of its intention to shut off the supply of water on account of such failure, refusal or neglect, then the City shall have the right to shut off the supply at the expiration of five (5)

days after the giving of such notice, and to terminate this contract unless within such five (5) days the Village shall make good such failure. The shutting off of the supply of water for any such cause shall not release the Village from its obligation to make payments of any amount or amounts due or to become due in accordance with the terms hereof.

(32) No assignment or transfer of this agreement shall be made by the Village.

(33) The Village hereby waives any defenses it may have by virtue of any governmental function it exercises in any action brought at law or equity under the terms of this contract.

(34) No officer, official or agent of the City has the power to amend, modify or alter this agreement or waive any of its conditions or to bind the City by making any promise or representation not contained herein.

(35) This agreement is subject to cancellation by the City of Chicago in the event the Supreme Court of the United States of America or any other court of competent jurisdiction decrees that the City has no right to contract for, sell, disperse, distribute or limits the amount of water the City may use for domestic pumpage or otherwise places a burden on the City in connection with the withdrawal of water from Lake Michigan, or otherwise dispose of water from Lake Michigan, to any municipality or user residing outside of the limits of the City of Chicago.

(36) The authority of the officials of the City to execute this agreement is evidenced by the authority of the City Council of the City of Chicago given on the ........................ day of ........................ ### Congratulations Extended to Chicago Cubs on Their Outstanding Achievement and for Continued Success.

A proposed resolution reading as follows:

WHEREAS, After 24 long and desolate years, the unquenchable faith of the ultra-loyal, fiercely-partisan Chicago Cub fans is being rewarded; and

WHEREAS, Pennant fever has hit all Chicagoans, and the long-awaited, never-despaired-of miracle is coming to pass; and

WHEREAS, The truism that the team which leads the League on the Fourth of July will win the Pennant is once again being proved. The Cubs, their fans, and all of Chicago's citizens are looking forward to the glorious day when their team will clinch the National League Pennant and go forward to bring to the great North Side of our City, and to all of Chicago, the heartland of our Nation, the World Series of 1969; and

WHEREAS, The stirring, exciting and gratifying achievements in pitching, fielding and hitting of our Chicago Cubs during this season have accounted for the Cub Power fever which has afflicted our City, and are directly responsible for the spirit of civic pride and accomplishment so prevalent among our citizenry, young and old alike; and

WHEREAS, It is impossible to single out any one individual Cub player, they all being "team men"; now, therefore,

*Be It Resolved,* That we, the members of the City Council of the City of Chicago, refraining from any display of geographic baseball partisanship, hereby congratulate our Chicago Cubs on their outstanding achievements; commend them for their good sportsmanship and team spirit; and express to them, our dauntless and invincible champions, our every good wish for continued success in the waning days of the baseball season, that they may widen the gap between themselves and their closest competitors in the Eastern Division of the National League, conquer their counterparts in the Western Division, and proceed inexorably to cinch the Pennant in their League and, inevitably, to capture the crowning glory of baseball, the World Series Championship, bringing to Chicago yet another star in the diadem of the world's greatest sports City; and

*Be It Further Resolved,* That we hereby request, and urge Honorable Richard J. Daley, Mayor, to declare the remaining months of the 1969 Baseball Season to be "The Era of the Fabulous Chicago Cubs" in the annals of our City's sports history.

The Contractor will take such action with respect to any subcontract or purchase order as HUD may direct as a means of enforcing such provisions, including sanctions for noncompliance: Provided, however, That in the event a Contractor becomes involved in, or is threatened with, litigation with a subcontractor or vendor as a result of such direction by HUD, the Contractor may request the United States to enter into such litigation to protect the interests of the United States.

B. *Non-Segregated Facilities.* The Contractor certifies that he does not maintain or provide for his employees any segregated facilities at any of his establishments, and that he does not permit his employees to perform their services at any location, under his control, where segregated facilities are maintained. The Contractor covenants that he will not maintain or provide for his employees any segregated facilities at any of his establismments, and that he will not permit his employees to perform their services at any location, under his control, where segregated facilities are maintained. As used in this paragraph the term "segregated facilities" means any waiting rooms, work areas, restroom and washrooms, restaurants and other eating areas, timeclocks, locker rooms and other storage or dressing areas, parking lots, drinking fountains, recreation or entertainment areas, transportation, and housing facilities provided for employees which are segregated by explicit directive or are in fact segregated on the basis of race, creed, color, or national origin, because of habit, local custom, or otherwise.

3. SPECIAL USE OF TERM

Notwithstanding Section 100 of the Grant Agreement and Section 100 of the Supplementary General Conditions, the term "Contractor" may include an "Operating Agency" as defined in the Grant Agreement and an "Agency" as defined in the Supplementary General Conditions.

4. DAVIS-BACON ACT

(1) *Minimum wages.* (i) All mechanics and laborers employed or working upon the site of the work will be paid unconditionally and not less often than once a week, and without subsequent deduction or rebate on any account (except such payroll deductions as are permitted by regulations issued by the Secretary of Labor under the Copeland Act (29 CFR Part 3)), the full amounts due at time of payment computed at wage rates not less than those contained in the wage determination decision of the Secretary of Labor which is attached hereto and made a part hereof, regardless of any contractual relationship which may be alleged to exist between the Contractor and such laborers and mechanics; and the wage determination decision shall be posted by the Contractor at the site of the work in a prominent place where it can be easily seen by the workers. For the purpose of this clause, contributions made or costs reasonably anticipated under section 1(b)(2) of the Davis-Bacon Act on behalf of laborers or mechanics are considered wages paid to such laborers or mechanics, subject to the provisions of 29 CFR 5.5(a)(1)(iv). Also for the purposes of this clause, regular contributions made or costs incurred for more than a weekly period under plans, funds, or programs, but covering the particular weekly period, are deemed to be constructively made or incurred during such weekly period.

(ii) The Contracting Officer shall require that any class of laborers or mechanics which are not listed in the wage determination and which is to be employed under the Contract, shall be classified or reclassified conformably to the wage determination, and a report of the action taken shall be sent by the Federal agency to the Secretary of Labor. In the event the interested parties cannot agree on the proper classification or reclassification of a particular class of laborers and mechanics to be used, the question accompanied by the recommendation of the Contracting Officer shall be referred to the Secretary for final determination.

(iii) The Contracting Officer shall require, whenever the minimum wage rate prescribed in the Contract for a class of laborers or mechanics includes a fringe benefit which is not expressed as an hourly wage rate and the Contractor is obligated to pay a cash equivalent of such a fringe benefit, an hourly cash equivalent thereof to be established. In the event the interested parties cannot agree upon a cash equivalent of the fringe benefit, the question, accompanied by the recommendation of the Contracting Officer, shall be referred to the Secretary of Labor for determination.

(iv) If the Contractor does not make payments to a trustee or other third person, he may consider as part of the wages of any laborer or mechanic the amount of any costs reasonably anticipated in providing benefits under a plan or program of a type expressly listed in the wage determination decision of the Secretary of Labor which is a part of this Contract: *Provided, however,* the Secretary of Labor has found, upon the written request of the Contractor, that the applicable standards of the Davis-Bacon Act have been met. The Secretary of Labor may require the Contractor to set aside in a separate account assets for the meeting of obligations under the plan or program.

(2) *Withholding.* HUD may withhold or cause to be withheld from the Contractor so much of the accrued payments or advances as may be considered necessary to pay laborers and mechanics employed by the Contractor or any subcontractor on the work the full amount of wages required by the Contract. In the event of failure to pay any laborer or mechanic employed or working on the site of the work, HUD may, after written notice to the Contractor, take such action as may be necessary to cause the suspension of any further payment, advance, or guarantee of funds until such violations have ceased.

(3) *Payrolls and basic records.* (i) Payrolls and basic records relating thereto will be maintained during the course of the work and preserved for a period of three years thereafter for all laborers and mechanics working at the site of the work. Such records will contain the name and address of each such employee, his correct classification, rates of pay (including rates of contributions or costs anticipated of the types described in section 1(b)(2) of the Davis-Bacon Act), daily and weekly number of hours worked, deductions made and actual wages paid. Whenever the Secretary of Labor has found under 29 CFR 5.5(a)(1)(iv) that the wages of any laborer or mechanic include the amount of any costs reasonably anticipated in providing benefits under a plan or program described in section 1(b)(2)(B) of the Davis-Bacon Act, the Contractor shall maintain records which show that the commitment to provide such benefits is enforceable, that the plan or program is financially responsible, and that the plan or program has been communicated in writing to the laborers or mechanics affected, and records which show the costs anticipated or the actual cost incurred in providing such benefits.

(ii) The Contractor will submit weekly a copy of all payrolls to the City if the City is a party to the Contract, but if the City is not such a party the Contractor will submit the payrolls to the Agency for transmission to the City, for transmission to HUD. The copy shall be accompanied by a statement signed by the employer or his agent indicating that the payrolls are correct and complete, that the wage rates contained therein are not less than those determined by the Secretary of Labor and that the classifications set forth for each labor or mechanic conform with the work he performed. A submission of a "Weekly Statement of Compliance" which is required under this Contract and the Copeland Regulations of the Secretary of Labor (29 CFR, Part 3), and the filing with the initial payroll or any subsequent payroll of a copy of any findings by the Secretary of Labor under 29 CFR 5.5(a)(1)(iv) shall satisfy this requirement. The prime Contractor shall be responsible for the submission of copies of payrolls for all subcontractors. The Contractor will make the records required under the labor standards clauses of the Contract available for inspection by authorized representatives of HUD, the City [or the Agency] and the Department of Labor, and will permit such representatives to interview employees during working hours on the job.

(4) *Apprentices.* Apprentices will be permitted to work as such only when they are registered, individually, under a bona fide apprenticeship program registered with a State apprenticeship agency which is recognized by the Bureau of Apprenticeship and Training, United States Department of Labor; or, if no such recognized agency exists in a State, under a program registered with the Bureau of Apprenticeship and Training, United States Department of Labor. The allowable ratio of apprentices to journeymen in any craft classification shall not be greater than the ratio permitted to the Contractor as to his entire work force under the registered program. Any employee listed on a payroll at an apprentice wage rate, who is not registered as above, shall be paid the wage rate determined by the Secretary of Labor for the classification of work he actually performed. The Contractor or subcontractor will be required to furnish to the Contracting Officer written evidence of the registration of his program and apprentices as well as of the appropriate ratios and wage rates, for the area of construction prior to using any apprentices on the contract work.

(5) *Compliance with Copeland Regulations (29 CFR Part 3).* The Contractor shall comply with the Copeland Regulations (29 CFR Part 3) of the Secretary of Labor which are herein incorporated by reference.

(6) *Subcontracts.* The Contractor will insert in any subcontracts the clauses contained in 29 CFR 5.5(a)(1) through (5) and (7) and such other clauses as HUD may by appropriate instructions require, and also a clause requiring the subcontractors to include these clauses in any lower tier subcontracts which they may enter into, together with a clause requiring this insertion in any further subcontracts that may in turn be made.

(7) *Contract termination; debarment.* A breach of clauses (1) through (6) may be grounds for termination of the contract, and for debarment as provided in 29 CFR 5.6.

5. CONTRACT WORK HOURS STANDARDS ACT

(1) *Overtime requirements.* No Contractor or subcontractor contracting for any part of the contract work which may require or involve the employment of laborers or mechanics shall require or permit any laborer or mechanic in any workweek in which he is employed on such work to work in excess of eight hours in any calendar day or in excess of forty hours in such workweek unless such laborer or mechanic receives compensation at a rate not less than one and one-half times his basic rate of pay for all hours worked in excess of eight hours in any calendar day or in excess of forty hours in such workweek, as the case may be.

(2) *Violation; liability for unpaid wages; liquidated damages.* In the event of any violation of the clause set forth in subparagraph (1), the Contractor and any subcontractor responsible therefor shall be liable to any affected employee for his unpaid wages. In addition, such Contractor and subcontractor shall be liable to the United States (in the case of work done under contract for the District of Columbia or a territory, to such District

or to such territory), for liquidated damages. Such liquidated damages shall be computed with respect to each individual laborer or mechanic employed in violation of the clause set forth in subparagraph (1) in the sum of $10 for each calendar day on which such employee was required or permitted to work in excess of eight hours or in excess of the standard workweek of forty hours without payment of the overtime wages required by the clause set forth in subparagraph (1).

(3) *Withholding for unpaid wages and liquidated damages.* HUD may withhold or cause to be withheld, from any moneys payable on account of work performed by the Contractor or subcontractor, such sums as may administratively be determined to be necessary to satisfy any liabilities of such Contractor or subcontractor for unpaid wages and liquidated damages as provided in the clause set forth in subparagraph (2).

(4) *Subcontracts.* The Contractor shall insert in any subcontracts the clauses set forth in subparagraphs (1), (2), and (3) of this paragraph and also a clause requiring the subcontractors to include these clauses in any lower tier subcontracts which they may enter into, together with a clause requiring this insertion in any further subcontracts that may in turn be made.

*Sec. 201. Use of the Grant.*—Grant funds shall be used only for those costs which the Government determines to be applicable to this Agreement. Grant funds shall not be used (1) for the general administration of the local government or (2) to replace non-Federal contributions in any federally aided undertaking included in the Program if prior to the filing of an application for assistance under Section 104 of the Act an agreement has been entered into with any Federal agency obligating such non-Federal contribution with respect to such undertaking.

*Sec. 202. Restrictions on Disbursements.*

(A) No grant funds shall be disbursed in payment of:

1. Costs incurred with respect to any action after HUD has requested that the City furnish data concerning such action prior to proceeding further therewith, unless and until the City is thereafter advised by HUD that the Government has no objection to the City so proceeding;

*Sec. 300. Records.*

(A) *Establishment and Maintenance of Records.*—The City shall establish and maintain records in accordance with requirements prescribed by HUD, with respect to all matters covered by this Agreement. *Sec. 301. Reports and Information.*—The City, at such time and in such forms as HUD may require, shall furnish HUD such statements, records, reports, data and information, as HUD may request pertaining to matters covered by this Agreement.

HUD may also withhold payment of any unearned portion of the Grant if the City is unable or unwilling to accept any additional conditions that may be provided by law, by executive order, by regulations, or by other policy announced by HUD at any time. If HUD withholds payment, it shall advise the City and specify the actions that must be taken, in case of suspension, as a condition precedent to the resumption of payments. The City will remit any unexpended balance of the payments on account of the Grant as well as such other portions of such payments previously received as determined by HUD to be due the Government. The action of the Government in accepting any such amount shall not constitute a waiver of any claim which the Government may otherwise have arising out of this Agreement.

### *Article V—Controls and Restrictions*

*Sec. 500. Conflict of Interest; Certain Federal Officials.*—No member of or Delegate to the Congress of the United States, and no Resident Commissioner shall be admitted to any share or part of this Agreement or to any benefit to arise from the same.

*Sec. 501. Conflict of Interest; Public Officials and Others.*

(A) *General.*—(1) No member of the City's governing body or of the governing body of the locality and (2) no official or employee of the City or of the locality or any person who exercises any functions or responsibilities in connection with this Agreement (a) may be admitted, directly or indirectly, to any share or part of this Agreement or to any benefit to arise from the same, or (b) shall own or acquire any personal interest in any property, contract, or proposed contract which would conflict with the performance of his duties or responsibilities under this Agreement, except to the extent provided for in this Section. If any such member, official, employee or other person (hereafter referred to collectively as "person") presently, or in the future, acquires, owns, or controls any such share, benefit, or personal interest, he shall immediately disclose such share, benefit, or personal interest to the City. Upon such disclosure, such person shall not continue his participation unless the City and Government shall determine that, in the light of such share, benefit, or personal interest, the participation of such person in any such action would not be contrary to the public interest. The City will promptly advise HUD of the facts and circumstances concerning any disclosure made to it pursuant hereto or any information obtained by it relating to conflicts of interest.

(B) *Citizen Participation.*—It is the understanding of the parties that the above provision will be implemented in such a manner so as not to unreasonably impede attainment of widespread citizen participation in the carrying out of this Agreement.

*Sec. 502. Opportunities for Residents.*—In all work made possible by or resulting from this Agreement, the City and each employer will take affirmative action to ensure that residents of the model neighborhood area are given maximum opportunities for training and employment and that business concerns located in, or owned in substantial part by, residents of the model neighborhood are to the greatest extent feasible awarded contracts.

*Sec. 503. Discrimination Prohibited.*

(A) In all hiring or employment made possible by or resulting from this Agreement, the City and each employer (1) will not discriminate against any employee or applicant for employment because of race, color, religion, sex, or national origin, and (2) will take affirmative action to ensure that applicants are employed, and that employees are treated during employment without regard to their race, color, religion, sex, or national origin. This requirement shall apply to but not be limited to, the following: employment, upgrading, demotion, or transfer; recruitment or recruitment advertising; layoff or termination; rates of pay or other forms of compensation; and selection for training, including apprenticeship. The City agrees to post in conspicuous places, available to employees and applicants for employment, notices to be provided by the Government setting forth the provisions of this nondiscrimination clause. The City will, in all solicitations or advertisements for employees placed by or on behalf of the City, state that all qualified applicants will receive consideration for employment without regard to race, color, religion, sex, or national origin.

(B) The City hereby agrees that it will incorporate or cause to be incorporated into any contract for construction work, or modification thereof, as defined in the regulations of the Secretary of Labor at 41 CFR Chapter 60, which is paid for in whole or in part with Grant funds, the equal opportunity clause which is a part of the labor standards provisions attached hereto.

The City further agrees that it will be bound by the above equal opportunity clause with respect to its own employment practices when it participates in federally assisted construction work: *Provided,* That if the City so participating is a State or local government, the above equal opportunity clause is not applicable to any agency, instrumentality or subdivision of such government which does not participate in work on or under the contract.

The City agrees that it will assist and cooperate actively with HUD and the Secretary of Labor in obtaining the compliance of contractors and subcontractors with the equal opportunity clause and the rules, regulations, and relevant orders of the Secretary of Labor, that it will furnish HUD and the Secretary of Labor such information as they may require for the supervision of such compliance, and that it will otherwise assist HUD in the discharge of its primary responsibility for securing compliance.

The City further agrees that it will refrain from entering into any contract or contract modification subject to Executive Order 11246 of September 24, 1965, with a contractor debarred from, or who has not demonstrated eligibility for, Government contracts and federally assisted construction contracts pursuant to the Executive Order. In addition, the City agrees that if it fails or refuses to comply with these undertakings, HUD may take any or all of the following actions: suspend or terminate payment of the Grant in whole or in part; refrain from extending any further assistance to the City under the program with respect to which the failure or refusal occurred until satisfactory assurance of future compliance has been received from such City; and refer the case to the Department of Justice for appropriate legal proceedings.

(C) No person in the United States shall, on the ground of race, color, religion, or national origin, be excluded from participation in, be denied the benefits of, or be subject to discrimination under any program or activity made possible by or resulting from this Agreement. The City and each employer will comply with all requirements imposed by or pursuant to the regulations of HUD effectuating Title VI of the Civil Rights Act of 1964.

*Sec. 505. Copyrights.*—If this Agreement results in a book or other copyrightable material, the author is free to copyright the work, but HUD reserves a royalty-free, nonexclusive, and irrevocable license to reproduce, publish, or otherwise use, and to authorize others to use, all copyrighted material and all material which can be copyrighted.

*Sec. 506. Patents.*—Any discovery or invention arising out of or developed in the course of work aided by this Agreement shall be promptly and fully reported to HUD for determination by HUD as to whether patent protection of such invention or discovery shall be sought and how the rights in the invention or discovery, including rights under any patent issued thereon, shall be disposed of and administered, in order to protect the public interest.

*Sec. 507. Government Not Obligated to Third Parties.*—The Government will not be obligated or liable hereunder to any party other than the City.

*Sec. 508. Provisions Concerning Certain Waivers.*—Subject to applicable Federal law, any right or remedy which the Government may have under this Agreement may be waived by the Government, if, in the judgment of HUD, this Agreement, as so modified, will still conform to the terms and requirements of pertinent laws.

*Sec. 509. When Rights and Remedies Not Waived.*—In no event shall any payment by the Government hereunder constitute or be construed to be a waiver by the Government of any breach of covenant or any default which may then exist on the part of the City, and the making of any such payment while any such breach or default shall exist shall in no way impair or prejudice any right or remedy available to the Government with respect to such breach or default.

*Sec. 510. Severability of Provisions.*—If any provision of this Agreement is held invalid, the remainder of this Agreement shall not be affected thereby if such remainder would then continue to conform to the terms and requirements of applicable law.

*Sec. 511. Approvals and Notices.*

(A) HUD approval shall be required for any substantial change in the Program, or for any substantial change in the work program of any item included in the Grant Budget, or for the addition or deletion of a project or activity from the Grant Budget.

(B) Whenever under the Agreement HUD approvals, authorizations, waivers, instructions or determinations are required, they shall be effective only when given either (1) in writing and signed by HUD or (2) by general issuances or regulations issued from time to time by HUD.

*Sec. 512. Maintenance of Effort.*—Payment by the Government shall be conditioned upon the maintenance during the period of this Agreement by the locality a level of aggregate expenditures for projects or activities similar to those being assisted under this Agreement, which is not less than the level of aggregate expenditures for such projects or activities prior to the execution of this Agreement. The City will promptly notify HUD of any matters which have a material tendency to affect compliance with this requirement.

*Sec. 513. Political Activity Prohibited.*—None of the funds, materials, property or services provided directly or indirectly under this Agreement shall be used in the performance of this Agreement for any partisan political activity, or to further the election or defeat of any candidate for public office.

*Sec. 514. Fair Housing.*—In all housing projects and activities and in all relocation activities made possible by or resulting from this Agreement, the City agrees to take affirmative action to further the fair housing policies of the Government.

*Sec. 515. Lobbying Prohibited.*—None of the Grant funds shall be used for publicity or propaganda purposes designed to support or defeat legislation pending before the Congress.

*Sec. 516. Labor Standards.*—There shall be included in all construction contracts, made possible by or resulting from this Agreement, with private entities the applicable labor standards provisions, if the work being carried on is not otherwise subject to provision of Federal law imposing labor standards on federally assisted construction and in the case of residential projects if the project is designed for the residential use of eight or more families.

7. The Railway Company reserves the right to connect to said sewer under the rules and regulations of the City.

8. The City shall assume and bear all cost of protection including watchmen, flagmen and protective devices which the Chief Engineer of the Railway Company may deem necessary to safeguard the continuous operations of trains, tracks, signals, telegraph and telephone wires and poles, and other facilities and fixtures of the Railway Company during the construction, reconstruction, repair, maintenance, operation and removal of the sewer and the City shall restore at its own risk and expense any property which may be disturbed during said work to the same conditions as near as may be as the same existed before the beginning of any work.

9. Whenever at any time during the term of this grant it is deemed necessary in the opinion of the Chief Engineer of the Railway Company to support the tracks, automatic signals, telegraph and telephone wires and poles or the property and structures, restore the grade of the same caused by settlement or subsidence, move or raise automatic signals, or raise telephone or telegraph wires and other property, and repair any damage to the same by reason of the construction, reconstruction, repair, maintenance, operation, existence or removal of the sewer, the Railway Company shall have the right to perform any work required in a reasonable and economical manner and furnish supervision therefor, and the City shall pay the entire cost thereof plus ten per cent (10%) of the cost of labor and fifteen per cent (15%) of the cost of material. The cost of labor shall include Social Security, both State and Federal, and Railroad Retirement taxes required under any Social Security or Railroad Retirement Act, and vacation with pay, fringe benefits, the cost of insurance when such can be shown to have been paid, the cost of watchmen, flagmen and the engineering and inspection service required in the field. The cost of materials shall be the actual cost of the same delivered at the site of the work. The rental cost of any large or special equipment, including work train, pile driver, derrick or other similar appliances used in said work shall be billed at the standard rate of rental fixed by the Railway Company for such equipment in the Chicago territory. The above percentages to be added shall cover the cost of superintendence, accounting, use of tools and small equipment and overhead expenses.

(a) Public Liability Insurance in an amount not less than $300,000 for injuries, including accidental death, to any one person to the same limit for each person, in an amount not less than $1,000,000 on account of any one accident; and

(b) Property Damage Insurance in an amount not less than $200,000 for all damages arising out of injury to or destruction of property in any one accident and, subject to that limit per accident, a total (or aggregate) limit of $400,000 for all damages arising out of injury to or destruction of property during the policy period.

The original or a certified copy of such insurance policies shall be delivered to the Railway Company before commencement of the work.

11. City agrees that, upon completion of its construction work on the premises described above, to leave a finished grade on said area at the same grade as it was at the beginning of the work, and to remove and dispose of all excess earth.

12. The City assumes and agrees to pay for all loss, damage, injury or death, including costs and expenses incident thereto caused to any person or to the property of any person by or during construction or installation of said sewer or by the maintenance, repair or renewal thereof, or by its presence or use upon the property of the Railway Company, or its removal therefrom, or caused by any defect in or failure of said sewer, and the City further assumes all loss and damage to said sewer even though operation by said Railway Company may have caused or contributed thereto, and the City shall forever indemnify the Railway Company, its agents, employees lessees, licensees, successors or assigns and each of them against and save them harmless for all liability for any such loss, damage, injury or death.

In case any suit shall be brought against the Railway Company or either of them on account of any such loss, damage, injury or death, the City agrees at its own expense to assume the defense thereof and to pay any and all judgments recovered against the Railway Company and each of them, or costs incurred by them on account of any such suit, provided, however, that in case any suit be brought against the Railway Company or either of them for any such loss the Railway Company shall give notice in writing of such suit and of such service to the Mayor or City Clerk of the City of Chicago for the purpose of enabling such defense to be made by City.

The City further agrees that no Special Tax or assessment under the provisions of "An Act Concerning Local Improvements" and Section 84 of the Cities and Villages Act or any other Act will be levied against said Railway Company to defray any part of the cost of the sewer herein.

13. The permission and authority herein granted shall continue in full force and effect so long as the City shall use said sewer system in which the aforesaid sewer is a part. Upon the discontinuance of the use of the said sewer the City at its own cost, risk and expense shall remove the same from the property of the Railway Company subject to the approval of and satisfaction of the Chief Engineer of the Railway Company, and in the event of its failure so to do within a reasonable time the Railway Company may at their option remove the same at the cost and expense of the City, it being understood that all the terms and provisions of this agreement shall remain in effect until said sewer shall have been completely removed and the property of the Railway Company shall have been restored to the condition existing prior to the installation of said sewer.

14. The authority hereby granted to City is not transferable.

In Witness Whereof, as of the day and year first above written, the parties hereto have caused these presents to be executed in triplicate by their duly authorized officers and to be duly attested and their corporate seals to be hereunto affixed.

### Tribute Paid to Late Sidney T. Holzman.

Honorable Richard J. Daley, Mayor, on behalf of himself and the other members of the City Council presented the following proposed resolution:

WHEREAS, Almighty God, in His Infinite Wisdom, has called to his eternal reward Sidney T. Holzman, Chairman of the Chicago Board of Election Commissioners; and

WHEREAS, Sidney T. Holzman was a true patriot, serving America in two World Wars; at the age of 18 he enlisted in a machine gun company of the 132nd Infantry Regiment of the Illinois 33rd Division and served with distinction in Europe during the First World War; he re-enlisted in 1941 and was assigned to recruiting service; and

WHEREAS, Chairman Holzman's service in the First World War was truly heroic; in 1918, during the Battle of the Argonne, he delivered a message for help, crossing artillery-torn woodlands and carrying a gravely-wounded fellow soldier with him, and then led the reinforcements back in relief; in recognition of his valor, Gen. John J. Pershing decorated him with a Distinguished Service Cross; in addition he was awarded the Croix de Guerre, the Verdun Medal and The French Commemorative Medal; a special commission named by Gen. Pershing designated him one of the 100 outstanding heroes of the war; and

WHEREAS, Sidney T. Holzman was appointed to the Chicago Board of Election Commissioners in 1952 and was elected Chairman the following year; he served continuously since then, performing his difficult and important duties responsibly and efficiently; and

WHEREAS, Sidney T. Holzman gave generously of his time to veteran activities, serving as Commander of James C. Russell Blackhawk Post 107 of the American Legion, Commander of the Cook County Council of the American Legion, and State Commander of the Military Order of the World Wars of Illinois; and

WHEREAS, Sidney T. Holzman lived the seventy years allotted to him with zest and involvement; the soldier's discipline and courage that he exhibited in his youth were retained to the end of his life; he had a military bluntness in expressing himself, a candor that could be softened by his merry sense of humor, or sharpened by his keen wit; now, therefore,

*Be It Resolved,* That the Mayor and members of the City Council in meeting assembled this 29th day of July, A.D. 1969, do hereby acknowledge their esteem for Sidney T. Holzman, a distinguished public servant, and their deep sense of loss at his passing, and extend to his family their sincere sympathy; and

*Be It Further Resolved,* That as a mark of respect to his memory, this resolution be incorporated in the Permanent Record of Proceedings of the City Council, and that a suitable copy thereof be presented to the family of Sidney T. Holzman.

Alderman Keane moved to *Suspend the Rules Temporarily,* to permit immediate consideration of and action upon said proposed resolution. The motion *Prevailed.*

On motion of Alderman Keane (seconded by Alderman Bohling and Alderman Sain) the foregoing proposed resolution was *Adopted,* unanimously, by a rising vote.

Honorable Richard J. Daley, Mayor, and the Aldermen who seconded the foregoing proposed resolution all lauded the late Chairman of the Board of Election Commissioners as a dedicated and tireless worker for all the people of Chicago. They spoke of his love of God and country and family. They spoke of his extreme patriotism, having served in both World Wars and that he had considered it a privilege to so serve. All extended their sincere condolences to the members of his family.

The Government may sublet any ~~part of~~ the premises but shall not be relieve~~d~~ from any obligations under this lease ~~by reason of any such subletting.~~

2. MAINTENANCE OF PREMISES.

The Lessor shall maintain the demised premises, including the building and any and all equipment, fixtures, and appurtenances, furnished by the Lessor under this lease in good repair and tenantable condition, except in case of damage arising from the act or the negligence of the Government's agents or employees. For the purpose of so maintaining said premises and property, the Lessor may at reasonable times, and with the approval of the authorized Government representative in charge, enter and inspect the same and make any necessary repairs thereto.

3. DAMAGE BY FIRE OR OTHER CASUALTY.

If the said premises be destroyed by fire or other casualty this lease shall immediately terminate. 6. COVENANT AGAINST CONTINGENT FEES.

The Lessor warrants that no person or selling agency has been employed or retained to solicit or secure this lease upon an agreement or understanding for a commission, percentage, brokerage, or contingent fee, excepting bona fide employees or bona fide established commercial or selling agencies maintained by the Lessor for the purpose of securing business. For breach or violation of this warranty the Government shall have the right to annul this lease without liability or in its discretion to deduct from the rental price or consideration, or otherwise recover, the full amount of such commission, percentage, brokerage, or contingent fee. (Licensed real estate agents or brokers having listings on property for rent, in accordance with general business practice, and who have not obtained such licenses for the sole purpose of effecting this lease, may be considered as bona fide employees or agencies within the exception contained in this clause.)

7. OFFICIALS NOT TO BENEFIT.

No Member of or Delegate to Congress, or Resident Commissioner shall be admitted to any share or part of this lease contract, or to any benefit that may arise therefrom; but this provision shall not be construed to extend to this lease contract if made with a corporation for its general benefit.

8. ASSIGNMENT OF CLAIMS.

Pursuant to the provisions of the Assignment of Claims Act of 1940, as amended (31 U.S.C. 203, 41 U.S.C. 15), if this lease provides for payments aggregating $1,000 or more, claims for monies due or to become due the Lessor from the Government under this contract may be assigned to a bank, trust company, or other financing institution, including any Federal lending agency, and may thereafter be further assigned or reassigned to any such institution. Any such assignment or reassignment shall cover all amounts payable under this contract and not already paid, and shall not be made to more than one party, except that any such assignment or reassignment may be made to one party as agent or trustee for two or more parties participating in such financing. Notwithstanding any provisions of this contract, payments to an assignee of any monies due or to become due under this contract shall not, to the extent provided in said Act, as amended, be subject to reduction or set-off.

~~9. EQUAL OPPORTUNITY CLAUSE.~~

(The following clause is applicable unless this contract is exempt under the rules and regulations of the President's Committee on Equal Employment Opportunity (41 CFR, Chapter 60).)

During the performance of this contract (Lease), the Contractor (Lessor) agrees as follows:

(a) The Contractor will not discriminate against any employee or applicant for employment because of race, creed, color, or national origin. The Contractor will take affirmative action to ensure that applicants are employed, and that employees are treated during employment, without regard to their race, creed, color, or national origin. Such action shall include, but not be limited to, the following: employment, upgrading, demotion or transfer; recruitment or recruitment advertising; layoff or termination; rates of pay or other forms of compensation; and selection for training, including apprenticeship. The Contractor agrees to post in conspicuous places, available to employees and applicants for employment, notices to be provided by the Contracting Officer setting forth the provisions of this nondiscrimination clause.

(b) The Contractor will, in all solicitations or advertisements for employees placed by or on behalf of the Contractor, state that all qualified applicants will receive consideration for employment without regard to race, creed, color, or national origin.

(c) The Contractor will send to each labor union or representative of workers with which he has a collective bargaining agreement or other contract or understanding, a notice, to be provided by the agency Contracting Officer, advising the said labor union or workers' representative of the Contractor's commitments under this nondiscrimination clause, and shall post copies of the notice in conspicuous places available to employees and applicants for employment.

(d) The Contractor will comply with all provisions of Executive Order No. 10925 of March 6, 1961, as amended, and of the rules, regulations, and relevant orders of the President's Committee on Equal Employment Opportunity created thereby.

(e) The Contractor will furnish all information and reports required by Executive Order No. 10925 of March 6, 1961, as amended, and by the rules, regulations, and orders of the said Committee, or pursuant thereto, and will permit access to his books, records, and accounts by the contracting agency and the Committee for purposes of investigation to ascertain compliance with such rules, regulations, and orders.

(f) In the event of the Contractor's noncompliance with ~~the nondiscrimination clause of this contract or with any of~~

~~the said rules, regulations, or orders, this contract may be canceled, terminated, or suspended in whole or in part and the Contractor may be declared ineligible for further Government contracts in accordance with procedures authorized in Executive Order No. 10925 of March 6, 1961, as amended, and such other sanctions may be imposed and remedies invoked as provided in the said Executive Order or by rule, regulation, or order of the President's Committee on Equal Employment Opportunity, or as otherwise provided by law.~~

~~(g) The Contractor will include the provisions of paragraphs (a) through (g) in every subcontract or purchase order unless exempted by rules, regulations, or orders of the President's Committee on Equal Employment Opportunity issued pursuant to section 303 of Executive Order No. 10925 of March 6, 1961, as amended, so that such provisions will be binding upon each subcontractor or vendor. The Contractor will take such action with respect to any subcontract or purchase order as the contracting agency may direct as a means of enforcing such provisions, including sanctions for noncompliance: *Provided, however,* that in the event the Contractor becomes involved in, or is threatened with, litigation with a subcontractor or vendor as a result of such direction by the contracting agency, the Contractor may request the United States to enter into such litigation to protect the interests of the United States.~~

Nothing herein shall require the furnishing to the general public of the use of any facility customarily furnished by the Lessor solely to tenants, their employees, customers, patients, clients, guests and invitees.

(c) It is agreed that the Lessor's noncompliance with the provisions of this section shall constitute a material breach of this lease. In the event of such noncompliance, the Government may take appropriate action to enforce compliance, may terminate this lease, or may pursue such other remedies as may be provided by law. In the event of termination, the Lessor shall be liable for all excess costs of the Government in acquiring substitute space, including but not limited to the cost of moving to such space. Substitute space shall be obtained in as close proximity to the Lessor's building as is feasible and moving costs will be limited to the actual expenses thereof as incurred.

(d) the training of personnel in its employ or under its direction;

The foregoing shall not preclude City or its concessionaires from making and collecting a charge for the use of public automobile parking areas, sightseeing facilities or ground transportation to or from the Airport furnished by City or its concessionaires, or preclude City from imposing any tax, permit or license fee not inconsistent with the rights and privileges granted to Airline hereunder.

*Section 1.04. Conduct of operations for other Airline Parties.* The demised premises may also be used by Airline from time to time on behalf of or in conjunction with any other Airline Party or Parties in connection with the conduct of air transportation by such other Airline Party or Parties, to the same extent as Airline is entitled to use the demised premises in its own behalf in connection with its conduct of air transportation, and in such case the rights and privileges granted hereunder to Airline, its employees, agents, passengers, guests, patrons and invitees and its or their suppliers of materials and furnishers of service shall, to the same extent, be granted to such other Airline Party's or Parties' employees, agents, passengers, guests, patrons and invitees, and its or their suppliers of materials and furnishers of service; provided, however, no such use shall be permitted without the consent of the Commissioner of Aviation, if such use involves payment to Airline by any such other Airline Party of an amount greater than Airline's estimated expenses with respect to space, facilities and services used by or furnished to such other Airline Party.

Airline shall not sublease any part or parcel of the demised premises or permit the use or occupancy of any part or parcel of the demised premises (except by other "Airport Use Agreement Parties" as set forth herein) except upon the prior written approval of, and subject to such other terms and conditions as may be imposed by the Commissioner of Aviation and the City Council, in each instance.

### *Article II*

The term of this Lease shall be for a period commencing on ......................, the first calendar day of the month following............, the date of the approval of this Lease by the City Council of the City of Chicago and terminating on December 31, 1974. Airline shall have the option to extend the term of this Agreement for a period terminating on December 31, 1979, upon the same terms and conditions in effect as of December 31, 1974, provided only that Airport is not at that time operating at a deficit as determined in accordance with the sound accounting practices by the City Comptroller and further provided such option is exercised by written notice from Airline to City at any time prior to three (3) months before the date of expiration of this Agreement.

### *Article III*

Airline shall, on or before the first day of each calendar month during the term hereof, pay to City, at the office of the City Comptroller of City, a monthly rental of Two Hundred Ninety-one and 67/100 Dollars ($291.67). Payment of rent shall begin on the same calendar day that the term of the Lease commences.

Notwithstanding the foregoing, if any rental commences otherwise than as of the first day of any month or terminates prior to the last day of any month, rental for such month shall be determined on a pro rata basis according to the number of days of such month involved, and any required payment or refund for such month shall be made as promptly as practicable.

Airline shall pay, in addition to the rents above specified, all water rates, taxes and assessments, general and special, lawfully levied or assessed upon the demised premises, or any part thereof, or upon any buildings or improvements at any time situated thereon, or lawfully levied or assessed upon the leasehold interest created hereby, during the term of this lease.

### *Article IV*

*Section 4.01. Construction, maintenance and repair by Airline.* Airline may construct or install on the demised premises, at its own expense, any buildings, improvements (including pavements), facilities and equipment, and any additions thereto, reasonably necessary or convenient in connection with any use, permitted under the provisions of this Lease, by Airline of the demised premises. All such construction or installation shall be made after obtaining any requisite building or construction licenses or permits. Plans and specifications of any such proposed construction or installation (including any substantial alteration or addition thereto) shall be submitted to and receive the approval of the Commissioner of Aviation and the Commissioner of Public Works prior to the commencement of construction or installation. Any advertising signs installed by Airline shall be limited to those which advertise air transportation, and the number, general type, size, design and location of such signs shall be subject to the approval of the Commissioner of Aviation.

Airline shall keep and maintain all buildings, improvements and facilities and additions thereto constructed or installed by it on the demised premises in good condition and repair, reasonable wear and tear excepted. No restrictions shall be placed on Airline as to the architects, builders or contractors who may be employed by it in connection with any construction, installation, alteration, repair or maintenance of any such buildings, improvements, facilities and additions.

Notwithstanding the foregoing, Airline shall keep the demised premises and all construction and installations made thereon by Airline in a sanitary and sightly condition, and shall comply with all health and safety requirements applicable thereto.

All construction or installation by Airline, pursuant to any right granted to it hereunder, which is made on any area outside the demised premises shall be made, kept and maintained by Airline in the same manner and under the same conditions as construction or installation by Airline on the demised premises.

*Section 4.02. Covenant against liens.* Airline shall keep the demised premises and the buildings, improvements and facilities constructed thereon by Airline free and clear of any and all liens in any way arising out of the construction, improvements or use thereof by Airline, provided, however, that Airline may in good faith contest the validity of any lien.

*Section 4.03. Performance by City upon failure of Airline to maintain.* In the event Airline fails to perform for a period of thirty (30) days after written notice from City so to do, any obligation required by this Article IV to be performed by Airline, City may enter the premises involved (without such entering causing or constituting a termination of this Lease or an interference with the possession of said premises by Airline) and do all things necessary to perform such obligation, charging to Airline the cost and expense thereof and Airline agrees to pay City such charge in addition to any other amounts payable by Airline hereunder; provided, however, that if Airline's failure to perform any such obligation endangers the safety of the public or of employees of City, and City so states in its notice to Airline, City may perform such obligation of Airline at any time after the giving of such notice and charge to Airline, and Airline shall pay, as aforesaid, the cost and expense of such performance.

*Section 4.04. Access by City.* Airline shall allow City, its officers, agents or employees, free access to the demised premises for the purpose of examining the same to ascertain if Airline is performing its obligations hereunder with respect thereto.

*Section 4.05. Equal Opportunity.* Airline agrees that in performing under this agreement and other agreements with City it shall not discriminate against any worker, employee or applicant, or any member of the public, because of race, creed, color, age, or national origin, nor otherwise commit an unfair employment practice. Airline further agrees that this article will be incorporated by Airline in all contracts entered into with suppliers of materials or services, contractors and subcontractors and all labor organizations, furnishing skilled, unskilled and craft union skilled labor, or who may perform any such labor or services in connection with this agreement. Attention is called to Executive Order 11246 issued September 24, 1965, 3 CFR p. 567, 1966; The Civil Rights Act of 1964, Pub. To demonstrate compliance Airline and its contractors and subcontractors will furnish such reports and information as requested by the Chicago Commission on Human Relations.

### *Article V*

*Section 5.01. Maintenance and Operation.* City shall operate and maintain, in all respects in a manner consistent with that of a reasonably prudent operator of an airport and keep in good condition and repair (including the removal of snow, vegetation, stones and other foreign matter as reasonably as may be done) all facilities and equipment now or hereafter provided by City, at or in connection with or serving the demised premises.

*Section 5.02. Quiet Enjoyment.* City agrees that Airline, performing its obligations hereunder, shall be entitled to and shall have the quiet possession and enjoyment of the premises, rights and privileges leased to it hereunder, subject, however, to the provisions hereof.

*Section 5.03. Performance by Airline upon failure of City to maintain and operate.* In the event City fails to perform, for a period of thirty (30) days after notice from Airline so to do, any obligation required to be performed by City, Airline may perform such obligation of City and deduct the cost to Airline of such performance from any amounts due hereunder or otherwise from Airline to City; provided, however, that if City's failure to perform any such obligation endangers the safety of Airline's operations at the Airport and Airline so states in its notice to City, Airline may perform such obligation of City at any time after the giving of such notice and deduct, as aforesaid, its cost of such performance. City, however, shall not be liable to Airline for any loss of revenues to Airline resulting from any of City's acts, omissions or neglect in the maintenance and operation by it of the Airport or any facilities now or hereafter connected therewith.

*Article VI*

Airline agrees to indemnify City and keep in force insurance insuring Airline and City as provided in Article X of the Airport Use Agreement.

Airline shall, at its own expense, keep in force insurance upon buildings and improvements which are of a character customarily insured and which are at any time located on the demised premises or constructed or installed by Airline, pursuant to any right granted to it hereunder, on any area off the demised premises. Such insurance shall (a) be issued by a company or companies of sound and adequate financial responsibility, (b) name City and Airline as assureds thereunder as their respective interests may appear, (c) be in an amount equal to ninety per cent (90%) of the insurable value of such buildings and improvements, and (d) cover such hazards as are insured against by fire and extended coverage insurance of the character customarily in force at the time in the area of Chicago, Illinois, upon buildings and improvements of similar character, and such other hazards as would normally be insured against under similar circumstances by a reasonably prudent owner of such buildings and improvements. Airline shall furnish to City certificates evidencing such insurance.

Should any building or improvement located on the demised premises or constructed or installed by Airline, pursuant to any right granted to it hereunder, on any area off the demised premises, be damaged or destroyed and any insurance proceeds are payable by reason thereof, Airline shall, with due diligence, use such insurance proceeds for the repair of such damage or destruction in conformity, in so far as practicable, with the original plans and specifications of such damaged or destroyed building or improvement, subject to any modifications of such plans and specifications agreed to by the Commissioner of Public Works and Airline, it being understood, however, that Airline shall not be required to expend for such repair an amount in excess of such insurance proceeds paid. In the event the damage or destruction is not capable of being repaired within 120 days after the date thereof, either because of insufficiency of such insurance proceeds or otherwise, Airline may, by notice to City given within 60 days after such damage or destruction, elect not to repair the same and in such event, Airline shall cause such building or improvement to be demolished to the ground level and the debris removed, using any insurance proceeds for such purpose. Any insurance proceeds shall be made available to Airline for such repair or such demolition and removal. Any balance of such insurance proceeds, remaining after such repair or demolition and removal, shall be divided between City and Airline, and shall be made available to them, as their respective interests may appear. In the event Airline shall, in accordance with the foregoing provisions, give notice to City of Airline's election not to repair any damage or destruction not capable of being repaired as aforesaid, then Airline may at the same time and by further notice to City elect to terminate this Lease on the date of giving of such notice, which termination, however, shall not affect the rights and obligations of City and Airline under this paragraph.

*Article VII*

### *Article IV*

*Section 4.01. Construction, maintenance and repair by Airline.* Airline may construct or install on the demised premises, at its own expense, any buildings, improvements (including pavements), facilities and equipment, and any additions thereto, reasonably necessary or convenient in connection with any use, permitted under the provisions of this Lease, by Airline of the demised premises. All such construction or installation shall be made after obtaining any requisite building or construction licenses or permits. *Section 5.03. Performance by Airline upon failure of City to maintain and operate.* In the event City fails to perform, for a period of thirty (30) days after notice from Airline so to do, any obligation required to be performed by City, Airline may perform such obligation of City and deduct the cost to Airline of such performance from any amounts due hereunder or otherwise from Airline to City; provided, however, that if City's failure to perform and such obligation endangers the safety of Airline's operations at the Airport and Airline so states in its notice to City, Airline may perform such obligation of City at any time after the giving of such notice and deduct, as aforesaid, its cost of such performance. City, however, shall not be liable to Airline for any loss of revenues to Airline resulting from any of City's acts, omissions or neglect in the maintenance and operation by it of the Airport or any facilities now or hereafter connected therewith.

### *Article VI*

Airline agrees to indemnify City and keep in force insurance insuring Airline and City as provided in Article X of the Airport Use Agreement.

Airline shall, at its own expense, keep in force insurance upon buildings and improvements which are of a character customarily insured and which are at any time located on the demised premises or constructed or installed by Airline, pursuant to any right granted to it hereunder, on any area off the demised premises. Such insurance shall (a) be issued by a company or companies of sound and adequate financial responsibility, (b) name City and Airline as assureds thereunder as their respective interests may appear (c) be in an amount equal to ninety percent (90%) of the insurance value of such buildings and improvements, and (d) cover such hazards as are insured against fire and extended coverage insurance of the character customarily in force at the time in the area of Chicago, Illinois, upon buildings and improvements of similar character, and such other hazards as would normally be insured against under similar circumstances by a reasonably prudent owner of such buildings and improvements. Airline shall furnish to City certificates evidencing such insurance.

Should any building or improvement located on demised premises or constructed or installed by Airline, pursuant to any right granted to it hereunder, or any area off the demised premises, be damaged or destroyed and any insurance proceeds are payable by reason thereof, Airline shall, with due diligence, use such insurance proceeds for the repair of such damage or destruction in conformity, insofar as practicable, with the original plans and specifications of such damaged or destroyed building or improvement, subject to any modifications of such plans and specifications agreed to by the Commissioner of Aviation and the Commissioner of Public Works and Airline, it being understood, however, that Airline shall not be required to expend for such repair an amount in excess of such insurance proceeds paid. In the event the damage or destruction is not capable of being repaired within 120 days after the date thereof, either because of insufficiency of such insurance proceeds or otherwise, Airline may, by notice to City given within 60 days after such damage or destruction, elect not to repair the same and in such event, Airline shall cause such building or improvement to be demolished to the ground level and the debris removed, using any insurance proceeds for such purpose. Any insurance proceeds shall be made available to Airline for such repair or such demolition and removal. Any balance of such insurance proceeds, remaining after such repair or demolition and removal, shall be divided between City and Airline, and shall be made available to them, as their respective interests may appear. In the event Airline shall, in accordance with the foregoing provisions, give notice to City of Airline's election not to repair any damage or destruction not capable of being repaired as aforesaid, then Airline may at the same time and by further notice to City elect to terminate this Lease on the date of giving such notice, which termination, however, shall not affect the rights and obligations of City and Airline under this paragraph.

*Article VII*

The following Articles of the Airport Use Agreement are hereby incorporated into this Agreement and made a part hereof, and shall be applicable to the rights and privileges granted and to the premises demised to Airline by City under this Lease: Articles VIII, IX, X, XI, XII, XIII, XIV, XV, and XVI.

D. No portion of the sidewalks, entries, passageways, vestibules, halls, or stairways, or access to public utilities of said building, shall be obstructed by Tenant or used for any other purpose other than for ingress to and egress from the demised premises. The doors, skylights, stairways, or openings that reflect or admit light into any place in the building, including hallways, corridors, and passageways, radiators, and house lighting appurtenances, shall not be covered or obstructed by Tenant. Tenant hereby assumes full responsibility for the acts and conduct of all persons admitted to said premises or any portion of said building by the consent of the Tenant or by or with the consent of any person acting for or in behalf of said Tenant, and said Tenant agrees to have on hand at all times, at its own expense, such security force as is deemed necessary by the Director to maintain order and to protect persons and property.

F. It shall be the sole responsibility and authority of the Fire Commissioner of the City of Chicago to determine the total number of persons to be admitted at any and all times to Navy Pier, or any part or section thereof, and his decision, or that of his authorized representative shall be final.

G. H. Landlord reserves the right to eject any objectionable person or persons from said building, and upon the exercise of this right by the Director, his representatives, agents or policemen, the Tenant hereby waives any right and all claims for damages against the City of Chicago and its employees and agents.

Tenant is expressly forbidden from entering into its own concession agreements for any product or service, and herewith agrees that it shall make available to the Landlord's concessionaires whatever space is deemed necessary by the Director for purposes of ingress, egress and servicing said concessions.

N. Any and all matters not herein expressly provided for shall be at the discretion of the Director.

O. It is expressly understood and agreed that the trade shows to be held and conducted by Tenant, under the terms of this Lease, are intended to be held and conducted at times which will coincide with the trade shows held and conducted in the City of Chicago by the National Housewares Manufacturers Association. Tenant's shows commence two days prior to the commencement of the shows of the National Housewares Manufacturers Association and run concurrently with the shows of said Association. In the event the dates of the shows customarily held in January and July by the National Housewares Manufacturers Association are altered, so that the rental periods prescribed herein do not provide for concurrent shows of Tenant, then the dates of Tenant's lease and occupancy of the Navy Pier facilities shall be adjusted to permit the concurrent holding of its shows with those of the National Housewares Manufacturers Association.

P. It is expressly agreed that the Landlord will not lease the Navy Pier facilities to any show competing with Tenant during a period of thirty days preceding and following the show dates for Tenant specified herein.

Q. In the event the Landlord shall determine to alter, remodel, restructure, rebuild, or demolish the premises, in such a manner or to such an extent that the same will be unavailable for any exhibition purposes, then the Landlord shall have the right to terminate the Tenant's occupancy for such period or periods specified in subparagraphs 3-(e) to 3-(j), both inclusive, provided that the Tenant shall be given not less than six (6) months' prior written notice of such termination; and in the event of such termination, there shall be returned to the Tenant any prepaid rental and utility deposit (equitably prorated) theretofore made with respect to such terminated period or periods.

In Witness Whereof, the parties hereto have caused this instrument to be signed in triplicate under their respective seals on the day and year first above written.

    (c) Agrees that it will terminate any existing exclusive right to engage in the sale of gasoline or oil, or both, granted before July 17, 1962, at such an airport, at the earliest renewal, cancellation, or expiration date applicable to the agreement that established the exclusive right; and

(d) Agrees that it will terminate any other exclusive right to conduct any aeronautical activity now existing at such an airport before the grant of any assistance under the Federal Airport Act.

19. It is further understood and agreed by the parties hereto that any reference herein or in the aforesaid Project Application to the plans and specifications for the installation of standby power to serve Runway 14R/32L shall mean the plans and specifications approved on 2 September 1969, subject to the engineering comments, by the Special Engineer, City of Chicago, Illinois, Chicago Area, Central Region, Federal Aviation Administration.

20. The Federal Government does not plan or contemplate providing during the current year for the construction of any additional structures pursuant to the provisions of Paragraph 9 of Part III—Sponsor's Assurances of the aforesaid Project Application and, therefore, it is understood and agreed that the Sponsor is under no obligation under the terms of this Grant Agreement to furnish any such area or rights without cost to the Federal Government. However, nothing contained herein shall be construed as altering or changing the rights of the United States and/or the obligations of the Sponsor under previous Grant Agreements respecting being furnished and furnishing of rent-free building space for the activities specified in such agreements.

The Sponsor's acceptance of this Offer and ratification and adoption of the Project Application incorporated herein shall be evidenced by execution of this instrument by the Sponsor, as hereinafter provided, and said Offer and Acceptance shall comprise a Grant Agreement, as provided by the Federal Airport Act, constituting the obligations and rights of the United States and the Sponsor with respect to the accomplishment of the Project and the operation and maintenance of the Airport. PART III—SPONSOR'S ASSURANCES

In order to furnish the assurances required by the Act and Regulations the Sponsor hereby covenants and agrees with the United States, as follows:

1. These covenants shall become effective upon acceptance by the Sponsor of an offer of Federal aid for the Project or any portion thereof, made by the FAA and shall constitute a part of the Grant Agreement thus formed. These covenants shall remain in full force and effect throughout the useful life of the facilities developed under this Project, but in any event not to exceed twenty (20) years from the date of said acceptance of an offer of Federal aid for the Project.

2. The Sponsor will operate the Airport as such for the use and benefit of the public. In furtherance of this covenant (but without limiting its general applicability and effect), the Sponsor specifically agrees that it will keep the Airport open to all types, kinds, and classes of aeronautical use without discrimination between such types, kinds, and classes: *Provided,* That the Sponsor may establish such fair, equal, and not unjustly discriminatory conditions to be met by all users of the Airport as may be necessary for the safe and efficient operation of the Airport; *And Provided Further,* That the Sponsor may prohibit or limit any given type, kind, or class of aeronautical use of the Airport if such action is necessary for the safe operation of the airport or necessary to serve the civil aviation needs of the public.

3. The Sponsor will not grant or permit any exclusive right for the use of the airport forbidden by Section 308 of the Federal Aviation Act of 1958, and will otherwise comply with all applicable laws. In furtherance of this covenant (but without limiting its general applicability and effect), the Sponsor specifically agrees that, unless authorized by the Administrator, it will not, either directly or indirectly, grant or permit any person, firm, or corporation the exclusive right for the conduct of any aeronautical activities on the Airport, including but not limited to, charter flights, pilot training, aircraft rental and sightseeing, aerial photography, crop dusting, aerial advertising and surveying, air carrier operations, aircraft sales and services, sale of aviation petroleum products whether or not conducted in conjunction with other aeronautical activity, repair and maintenance of aircraft, sale of aircraft parts, and any other activities which because of their direct relationship to the operation of aircraft can be regarded as an aeronautical activity: *Provided,* That the prohibition against the grant or permit of an exclusive right as set forth herein in no way alters the rights or obligations of the Sponsor under a surplus property instrument of transfer pursuant to which surplus property was conveyed to the Sponsor by the United States pursuant to the *Surplus Property Act of 1944, (61 Stat. 678), as amended.*

4. The Sponsor agrees that it will operate the Airport for the use and benefit of the public, on fair and reasonable terms, and without unjust discrimination. In furtherance of this covenant (but without limiting its general applicability and effect), the Sponsor specifically covenants and agrees:

a. That in its operation and the operation of all facilities on the airport, neither it nor any person or organization occupying space or facilities thereon will discriminate against any person or class of persons by reason of race, color, creed, or national origin in the use of any of the facilities provided for the public on the Airport.

b. That in any agreement, contract, lease, or other arrangement under which a right or privilege at the Airport is granted to any person, firm, or corporation to render to the public any service (including the furnishing or sale of any aeronautical parts, materials, or supplies) essentionl to the operation of aircraft at the Airport, the Sponsor will insert and enforce provisions requiring the contractor:

(1) to furnish said service on a fair, equal, and not unjustly discriminatory basis to all users thereof, and

(2) to charge fair, reasonable, and not unjustly discriminatory prices for each unit or service; *Provided,* That the contractor may be allowed to make reasonable and nondiscriminatory discounts, rebates, or other similar types of price reductions to volume purchasers.

c. That it will not exercise or grant any right or privilege which would operate to prevent any person, firm, or corporation operating aircraft on the Airport from performing any services on its own aircraft with its own employees (including, but not limited to maintenance and repair) that it may choose to perform.

---

[1] State character of property interest in each area and list and identify for each all exceptions, encumbrances, and adverse interests of every kind and nature, including liens, easements, leases, etc. The separate areas of land need only be identified here by the area numbers shown on the property map.

d. In the event the Sponsor itself exercises any of the rights and privileges referred to in subsection b, the services involved will be provided on the same conditions as would apply to the furnishing of such services by contractors or concessionaires of the Sponsor under the provisions of such subsection b.

5. Nothing contained herein shall be construed to prohibit the granting or exercise of an exclusive right for the furnishing of nonaviation products and supplies or any service of a nonaeronautical nature or to obligate the Sponsor to furnish any particular nonaeronautical service at the Airport.

6. The Sponsor will operate and maintain in a safe and serviceable condition the Airport and all facilities thereon and connected therewith which are necessary to serve the aeronautical users of the Airport other than facilities owned or controlled by the United States, and will not permit any activity thereon which would interfere with its use for airport purposes: *Provided,* That nothing contained herein shall be construed to require that the Airport be operated for aeronautical uses during temporary periods when snow, flood, or other climatic conditions interfere with such operation and maintenance; *And Provided Further,* That nothing herein shall be construed as requiring the maintenance, repair, restoration or replacement of any structure or facility which is substantially damaged or destroyed due to an act of God or other condition or circumstance beyond the control of the Sponsor.

7. Insofar as it is within its power and reasonably possible, the Sponsor will, either by the acquisition and retention of easements or other interests in or rights for the use of land or air space or by the adoption and enforcement of zoning regulations, prevent the construction, erection, alteration, or growth of any structure, tree, or other object in the approach areas of the runways of the Airport, which would constitute an obstruction to air navigation according to the criteria or standards prescribed in Section A of FAA Technical Standard Order No. N18, or Advisory Circular (AC) No. 150/5300-1, whichever is applicable according to the currently approved airport layout plan. In addition, the Sponsor will not erect or permit the erection of any permanent structure or facility which would interfere materially with the use, operation, or future development of the Airport, in any portion of a runway approach area in which the Sponsor has acquired, or may hereafter acquire, property interests permitting it to so control the use made of the surface of the land.

8. All facilities of the Airport developed with Federal aid and all those usable for the landing and taking off of aircraft, will be available to the United States at all times, without charge, for use by military and naval aircraft in common with other aircraft, except that if the use by military and naval aircraft is substantial, a reasonable share, proportional to such use, of the cost of operating and maintaining facilities so used, may be charged. Unless otherwise determined by the FAA, or otherwise agreed to by the Sponsor and the using agency, substantial use of an airport by military and naval aircraft will be considered to exist when operations of such aircraft are in excess of those which, in the opinion of the FAA, would unduly interfere with use of the landing area by other authorized aircraft, or during any calendar month that:

a. Five (5) or more military or naval aircraft are regularly based at the airport or on land adjacent thereto; or

b. The total number of movements (counting each landing as a movement and each takeoff as a movement) of military or naval aircraft is 300 or more, or the gross accumulative weight of military or naval aircraft using the Airport (the total movements of military or naval aircraft multiplied by gross certified weights of such aircraft) is in excess of five million pounds.

9. Whenever so requested by the FAA, the Sponsor will furnish without cost to the Federal Government, for construction, operation and maintenance of facilities for air traffic control activities, or weather reporting activities and communication activities related to air traffic control, such areas of land or water, or estate therein, or rights in buildings of the Sponsor as the FAA may consider necessary or desirable for construction at Federal expense of space or facilities for such purposes. The approximate amounts of areas and the nature of the property interests and/or rights so required will be set forth in the Grant Agreement relating to the Project. Such areas or any portion thereof will be made available as provided herein within 4 months after receipt of written request from the FAA.

10. The Sponsor will furnish the FAA with such annual or special airport financial and operational reports as may be reasonably requested. Such reports may be submitted on forms furnished by the FAA, or may be submitted in such manner as the Sponsor elects so long as the essential data are furnished. The Airport and all airport records and documents affecting the Airport, including deeds, leases, operation and use agreements, regulations, and other instruments, will be made available for inspection by any duly authorized representative of the FAA upon reasonable request. The Sponsor will furnish to the FAA, upon request a true copy of any such document.

11. The Sponsor will not enter into any transaction which would operate to deprive it of any of the rights and powers necessary to perform any or all of the covenants made herein, unless by such transaction the obligation to perform all such covenants is assumed by another public agency found by the FAA to be eligible under the Act and Regulations to assume such obligations and having the power, authority, and financial resources to carry out all such obligations. If an arrangement is made for management or operation of the Airport by any agency or person other than the Sponsor or an employee of the Sponsor, the Sponsor will reserve sufficient rights and authority to insure that the Airport will be operated and maintained in accordance with the Act, the Regulations, and these covenants.

12. The Sponsor will keep up to date at all times an airport layout plan of the Airport showing (1) the boundaries of the Airport and all proposed additions thereto, together with the boundaries of all offsite areas owned or controlled by the Sponsor for airport purposes, and proposed additions thereto; (2) the location and nature of all existing and proposed airport facilities and structures (such as runways, taxiways, aprons, terminal buildings, hangars, and roads), including all proposed extensions and reductions of existing airport facilities; and (3) the location of all existing and proposed non-aviation areas and of all existing improvements thereon. Such airport layout plan, and each amendment, revision, or modification thereof, shall be subject to the approval of the FAA, which approval shall be evidenced by the signature of a duly authorized representative of the FAA on the face of the airport layout plan. The Sponsor will not make or permit the making of any changes or alterations in the Airport or any of its facilities

other than in conformity with the airport layout plan as so approved by the FAA, if such changes or alterations might adversely affect the safety, utility, or efficiency of the Airport.

13. Insofar as is within its power and to the extent reasonable, the Sponsor will take action to restrict the use of land adjacent to or in the immediate vicinity of the Airport to activities and purposes compatible with normal airport operations including landing and takeoff of aircraft.

14. If at any time it is determined by the FAA that there is any outstanding right or claim of right in or to the Airport property, other than those set forth in Part II, paragraphs 7(a), 7(b), and 7(c), the existence of which creates an undue risk of interference with the operation of the Airport or the performance of the covenants of this Part, the Sponsor will acquire, extinguish, or modify such right or claim of right in a manner acceptable to the FAA.

15. Unless the context otherwise requires, all terms used in these covenants which are defined in the Act and the Regulations shall have the meanings assigned to them therein.

### PART IV—PROJECT AGREEMENT

If the Project or any portion thereof is approved by the FAA, and an offer of Federal aid for such approved Project is accepted by the Sponsor, it is understood and agreed that all airport development included in such Project will be accomplished in accordance with the Act and the Regulations, the plans and specifications for such development, as approved by the FAA, and the Grant Agreement with respect to the Project.

In witness whereof, the Sponsor has caused this Project Application to be duly executed in its name, this 29th day of August, 1969.

[Signature forms and Exhibit "A" omitted]

### NON-DISCRIMINATION IN A FEDERALLY ASSISTED PROGRAM OF THE FEDERAL AVIATION ADMINISTRATION.

In order to furnish the assurances required by Title VI of the Civil Rights Act of 1964 and by Part 15 of the Federal Aviation Regulations as amended, the Sponsor named below (hereinafter called the "Sponsor") hereby covenants and agrees with the United States (hereinafter called the "Government") as follows:

> The Sponsor, in the operation and use of the airport listed below will not on the grounds of race, color, or national origin discriminate or permit discrimination against any person or group of persons in any manner prohibited by Part 15 of the Federal Aviation Regulations.
>
> The Sponsor will also include, or require the inclusion, in every agreement or concession pursuant to which any person, other than the Sponsor, operates or has the right to operate any facility on the Airport providing services to the public, the foregoing covenant as an obligation assumed by that person, together with a provision granting the Sponsor the right to take such action as the Government may direct to enforce that covenant.
>
> Non-compliance with the above assurances shall constitute a material breach, and in the event of such non-compliance the Government may take appropriate action to enforce compliance, may terminate the Grant Agreement to which this covenant relates, or seek judicial enforcement.
>
> The covenant shall become effective upon execution of a Grant Agreement pursuant to the identified Project Application and shall constitute part of the Grant Agreement to which it relates and shall remain in full force and effect so long as the airport covered by such agreement continues to be used and operated as a public airport.

SECTION 2. This ordinance shall be in force and effect from and after its passage.

Honorable Richard J. Daley, Mayor, on behalf of himself and the other members of the City Council presented the following proposed resolution:

WHEREAS, Almighty God has summoned to his eternal reward Ludwig Mies Van Der Rohe, architect; and

WHEREAS, Mies Van Der Rohe, was born in Germany in 1886, the son of a stone mason; so demanding was the father's craft, that in instructing his son, the boy was once made to tear down an entire wall when a single brick was found out of line; he received no formal training as an architect, but rather apprenticed himself to a draftsman and, later, to a leading architect before beginning his professional career in 1907;

WHEREAS, Mies Van Der Rohe's work became identified with the new order in architecture; certain elements, such as the steel skeleton, flat roof, and ribbon windows, became apparent in his style and the widespread acclaim for his architecture won him the commission to design the German Pavilion at the Barcelona World's Fair in 1929, thought by many to be one of the most beautiful buildings in the world; and

WHEREAS, Mies Van Der Rohe served as director of the Bauhaus, a noted school of design, from 1930 until 1933; in 1937 he left Germany, and came to the United States, adopting Chicago as his new home and joining the Armour Institute of Technology, now part of the Illinois Institute of Technology; he continued his work and so continued Chicago's tradition of outstanding architecture; and

WHEREAS, Mies Van Der Rohe believed that "architecture is nothing else than an expression of civilization;" and so, just as the cathedrals of Europe reflect a time of faith and religion, so do his buildings, such as the Chicago Federal Center, the School of Social Service Administration at the University of Chicago, or his Lake Shore Drive apartment buildings reflect an age of technology; they are structures that strive for order and rationality amidst the turbulence and anxiety of today; they are completely contemporary buildings that could belong to no other time; and

WHEREAS, Mies Van Der Rohe's world-wide stature won for him many honors, including the Presidential Medal of Freedom and the Gold Medals of the American Institute of Architects, the Royal Institute of British Architects and the Federation of German Architects, it is fitting as well for the City of Chicago, where he lived and created, to take special note of the void that his passing leaves in its cultural life; now, therefore,

*Be It Resolved,* That the Mayor and Members of the City Council, in meeting assembled this 5th day of September, A. D. 1969, do publicly declare, in behalf of the people of Chicago, their sincere regret at the passing of Ludwig Mies Van Der Rohe, and acknowledge this community's indebtedness to him for the legacy of beauty and self-revelation that he has bequeathed to us all; and

The roadway(s) of the several street(s) heretofore specified between the points herein described, also the roadway(s) of all intersecting alley(s) extended from the curb line to the street line on each side of said specified street(s) between the points herein described, after removing trees therefrom, shall be so graded by cutting for filling and compacted by rolling with a roller of ten (10) tons weight that after the grading of the roadbed(s) is completed and the pavement herein described placed thereon, the surface of the finished pavement at the center of the roadway of each of said specified street(s) shall be at the elevation of the top of the curbing herein described; and the surface of the said finished pavement at the summits in the gutters between catchbasins and adjoining the roadway face of the curbing shall be three (3) inches below the top of said curbing, and at the catchbasin inlets in the gutters adjoining the roadway face of the curbing shall be nine (9) inches below the top of said curbing. The slope of the gutters adjoining the roadway face of said curbing shall be uniform from the summits to the catchbasin inlets.

A transverse section of the surface of the finished pavement and gutters shall be an arc of a circle passing through the said gutter elevations and the elevation of the center of said finished roadway at every part of the roadway of each of said specified street(s) between the points herein described.

In all intersecting alley(s) herein specified at the street line(s) of said specified street(s) the surface of the finished pavement adjoining the curbing shall be even with the top of the curbing, and the surface of the finished pavement at the center of the roadway(s) of said alley(s) shall be three (3) inches below the top of the curbing; and a transverse section of the surface of the finished pavement at the street line(s) of said specified street(s) shall be an arc of a circle passing through the surface of the pavement adjoining said curbing and the surface of the pavement at the center of said finished roadway(s). The surface of the said pavement thence shall slope gradually to meet the surface of the finished pavement at the curb lines of specified street(s).

On the sub-grade as formed and compacted shall be spread an insulation course of limestone screenings. Said insulation course shall be one (1) inch in thickness and shall extend across the full width of the roadbed.

On the insulation course as formed and compacted shall be spread a foundation course consisting of a layer of crushed limestone of the best quality, broken so as to pass through a ring of four (4) inches internal diameter and held on a ring of two (2) inches internal diameter. The stone spread shall be well graded as to sizes. It shall be evenly distributed so as to leave no pockets filled with the small size stone. This layer shall be thoroughly rolled with a self propelled three wheel roller, weighing not less than ten (10) tons. The rolling shall begin at the edge of the pavement and the roller shall move parallel with the center line of the roadway. The roller shall progress gradually towards the center of the roadway, uniformly lapping each preceeding track, covering the entire surface with the rear wheels and continuing until the stone does not creep or move ahead of the roller. After the crushed limestone has been thoroughly rolled and keyed, limestone screenings shall be applied gradually over the surface and the rolling continued until sufficient screenings have been applied to completely fill the interstices.

The screenings shall be swept in with hand brooms to properly fill the voids. The spreading and rolling shall continue until no more screenings will go in dry. No excess of screenings shall be used before applying water. Immediately after the voids have been filled with screenings, the macadam shall be sprinkled until saturated, the sprinkler being followed by a roller. More screenings shall be added if necessary. The sprinkling, sweeping and rolling shall continue until a grout shall be formed of the screening and water that will fill all voids, and form a wave of grout before the wheels of the roller. The quantity of screening and water necessary to fill the voids shall be determined by the engineer and shall be sufficient to produce a rough, granular surface. The rolling, at all times, shall begin at the sides, and then progress toward the center, thoroughly covering the entire surface with the rear wheels. When compacted, this layer shall measure not less than five (5) inches in thickness.

Upon the finished waterbound macadam base there shall be uniformly applied by an approved type of spreader box, two (2) inch stone to a depth providing a total base course thickness of three (3) inches after final compaction. After shaping to grade and rolling with a ten (10) ton roller three quarter (¾) inch stone chips shall be broadcast and broomed into the surface voids at the rate of fifteen (15) pounds per square yard. Liquid asphalt at a temperature of 140 degrees F. shall be uniformly applied by a pressure distributor at a rate of one and one-half (1½) per gallons per square yard. Stone chips shall again be broadcast and broomed uniformly over the surface at the rate of fifteen (15) pounds per square yard. Liquid asphalt shall be uniformly applied by a pressure distributor at rate of one-half (½) gallon per square yard. Stone chips shall be broadcast again at the rate of ten (10) pounds per square yard. The surface shall then be thoroughly rolled. The asphalt shall conform to the State Specification for Emulsified Asphalt R.S. 2, Page 640 of Illinois Standard Specifications for Road and Bridge Construction adopted January 2, 1952.

On the said foundation course shall be placed an asphaltic concrete surface course two (2) inches in thickness consisting of an asphaltic concrete mixture conforming to the standard requirements of the Illinois State Division of Highways for Type 1-11 Asphaltic Concrete adopted January 2, 1952, as follows: The asphaltic mix shall consist of a mineral aggregate bonded with the asphaltic cement. When fifty (50) grams of said paving asphalt is heated in an uncovered tin box five and one-half (5½) centimeters in diameter and three and one-half (3½) centimeters in depth, and is held at a temperature of three hundred and twenty-five (325) degrees Fahrenheit for five (5) hours, then it shall have lost not over two (2) per cent by weight and the penetration of the residue thus obtained shall not be less than seventy (70) per cent of the penetration before such heating, said penetration being determined as herein described. Said paving asphalt shall have a ductility of not less than one hundred (100) centimeters being determined by elongating a briquette Dow form of said paving asphalt at uniform rate of five (5) centimeters per minute at a temperature of seventy-seven (77) degrees Fahrenheit.

The paving asphalt and mineral aggregate shall be mixed when heated between three hundred (300) and three hundred fifty (350) degrees Fahrenheit in an approved mixer to produce a homogenous mixture in which all particles of aggregate are coated uniformly. The heated mixture shall be delivered to the pavement in trucks with approved clean tight dump bodies. The temperature when delivered at the street shall be between two hundred fifty (250) and three hundred fifty (350) degrees

Fahrenheit. Upon arrival the asphaltic mixture shall be spread upon the prepared base at a uniform depth and consistency so that the thickness when compacted as herein described will be two (2) inches.

Immediately after the asphalt surface course shall be spread it shall be connected thoroughly and uniformly with a three (3) wheel roller or a tandem roller. The asphalt paving mix shall be dumped first upon approved steel dump pans outside of the area on which it is to be spread. Immediately thereafter it shall be distributed into place with shovels and spread with rakes in layers of uniform density and correct depth, unless a spreading machine is used. If a spreading machine is used it shall be of a type approved by the Board of Local Improvements. Immediately after the surface course mixture is placed it shall be compacted thoroughly with a three-wheel roller or a tandem roller. One (1) or more three-wheel rollers and one (1) or more tandem rollers will be required. The actual number of such rollers to be determined by the Engineer in accordance with the progress of the work. If the production of the asphalt plant delivered to the pavement exceeds seventy-five (75) tons per hour additional rollers shall be furnished as directed by said Engineer. After a final rolling the asphalt surface course shall at all points have a density of not less than ninety-five (95) per cent of the maximum possible density of a voidless pavement composed of the same materials in like proportions.

### POZZOLANIC BASE COURSE

IV-2. On the subgrade as formed and compacted shall be placed and compacted to the depth shown on the plans and as herein provided.

(a) The pozzolanic base course shall be constructed in layers not more than 6 inch (compacted) in thickness. When the thickness specified is more than 6 inches the base course shall be constructed in 2 or more approximately equal layers. Each layer shall be deposited, full-lane width, directly on the prepared subgrade or on the preceeding layer of compacted mixture with a mechanical spreader box of a type approved by the engineer. After having been tested for density and approved by the Engineer, the previous layer shall be raked to a depth of one inch and dampened with water immediately prior to placing the succeeding layer so that the layers are in it together. The second layer must be placed the same day as the first layer. The Engineer of the Board of Local Improvements shall determine when the base course shall be constructed in one or more lifts. When placed, the pozzolanic mixture shall be free from segregation and shall require minimum blanding and manipulation. Immediately after placing, the mixture shall be compacted with a pneumatic-tired roller, or with a vibratory compactor, or with a combination of the two. The base course, shall be given a final rolling with a three wheel or tandem roller. If the pozzolanic base is placed on gradual sub-base, the pozzolanic base shall be compacted to at least 100 per cent of maximum density except that if more than one layer is required the first layer shall be compacted to 97% of maximum density and succeeding layers shall be compacted to 100% of maximum density.

### Tribute Paid to Late Archbishop Sheil.

Honorable Richard J. Daley, Mayor, on behalf of himself and the other members of the City Council presented the following proposed resolution:

WHEREAS, Almighty God in His Infinite Wisdom has seen fit to bring to a close the divinely inspired life of Archbishop Bernard J. Sheil; and

WHEREAS, Archbishop Sheil was born in Chicago and attended St. Columbkille School and later St. Viator College in Bourbonnais, Illinois. He was ordained a priest in Chicago in 1910, and during World War I served as chaplain at the Great Lakes Naval Training Center; and

WHEREAS, At the conclusion of the war he was assigned to Holy Name Cathedral and served in the capacity of Catholic Chaplain for Cook County Jail. He began his ecclesiastical dedication to youth by establishing the Catholic Youth Organization in 1930 to combat the misery he had observed while serving as the jail chaplain. Today this vast organization affects more than 100,000 youths in the Chicago Archdiocese and has some 30,000 local groups throughout the nation and abroad; it serves as a living monument to his undying effort to serve his God and fellowman; and

WHEREAS, His steadfast dedication to the young people caused President Truman to name him his personal representative to investigate problems of youth in Europe after World War II; he was later proclaimed by the late Albert Cardinal Meyer the "Apostle of Youth"; and

WHEREAS, Archbishop Sheil has served his Church and the religious community of Chicago as chancellor, auxiliary bishop and as Pastor of St. Andrew parish; and

WHEREAS, Archbishop Sheil was a fearless champion of racial, labor and ecumenical causes; his acclaim has won him the titles of "a friend of the little guy", and "the shirt-sleeve bishop". He was outspoken in his denunciation of prejudice and persecution, and he was a leader of social and economic justice for all people. During his 56-year career in Chicago, he had earned the love of many and the respect of all; now, therefore,

*Be It Resolved,* That the Mayor and the Members of the City Council and the people of the City of Chicago express their sorrow upon the death of Archbishop Bernard J. Sheil, and hereby acknowledge their gratitude for his life of service dedicated to God, Church and Country; and

*Be It Further Resolved,* That as a mark of respect to his memory this resolution be incorporated in the permanent record of the Journal of the Proceedings of the City Council of the City of Chicago.

Alderman Keane moved to *Suspend the Rules Temporarily* to permit immediate consideration of and action upon the foregoing proposed resolution. The motion *Prevailed.*

On motion of Alderman Keane (seconded by Alderman Hoellen and Alderman Frost) the foregoing proposed resolution was *Adopted,* unanimously, by a rising vote.

Alderman Keane and the seconding aldermen spoke of the long and fruitful life the late Archbishop had devoted to all the people of Chicago. They spoke of his leadership not only in religious matters, but cited his devotion to all causes espoused for the deprived and downtrodden. It was noted that he had been pastor of St. Andrew Church for three decades. His championship of youths which led to his founding of the C.Y.O. had resulted in untold benefits for so many and would be a lasting memorial to him forever.

Honorable Richard J. Daley, Mayor, then addressed the Council expressing the thanks of all for the many wonderful accomplishments of the late Archbishop. He stated that he felt that Chicago owed him a lasting debt of gratitude for his efforts for all young people. He concluded by saying that Chicago would always remember him for his many gifts and achievements.

### Tribute Paid to Late Senator Dirksen.

Honorable Richard J. Daley, Mayor, on behalf of himself and the other members of the City Council presented the following proposed resolution:

WHEREAS, Almighty God, in His Infinite Wisdom has taken from our midst on September 7, 1969, United States Senator Everett McKinley Dirksen; and

WHEREAS, Senator Dirksen was a most able and highly respected legislator and political leader who gave valuable service to his Nation and to Illinois. His advice and counsel was sought by Presidents of both parties, and as well known as he was for his mellifluous voice and flowery manner, he was known as a shrewd and practical political leader who was a pillar of strength to his party; and

WHEREAS, Senator Dirksen was born in Pekin, Illinois, and attended grade and high schools of that city. He attended the University of Minnesota and the University of Minnesota Law School, finishing law school at night, and received honorary degrees from Hope College, Bradley University, De Paul University and Lincoln Memorial University. Senator Dirksen served in the United States Army during World War I and spent seventeen months overseas, having been commissioned from the ranks. He entered business as a machinery manufacturer, a dredging contractor and in the wholesale bakery business, thereafter practicing law. He was a member of the American Bar Association, the Illinois Bar Association, the American Legion, the Veterans of Foreign Wars, the Elks, the Moose, the Eagles, the Shriners, the Odd Fellows, and the Isaac Walton League; and

WHEREAS, Senator Dirksen was elected to the 73rd Congress as a United States Representative in 1932 and served in the 74th through the 80th Congresses, retiring voluntarily in 1949. He was nominated for the United States in an open primary in 1950 and was elected to the Senate in that year, serving in that position until his untimely death; and

WHEREAS, Senator Dirksen became Republican Leader of the Senate in 1959 and was deeply involved in historic legislation. He helped to secure approval of the nuclear test-ban treaty in 1963 and the Civil Rights Act of 1964. He was a skilled negotiator and an experienced parliamentarian. His capacity for the myriad problems contemplated by the Senate in the fields of human relations, foreign affairs, public utilities, real estate, steel production, drugs and chemicals, small loan companies, medical services and newspapers was a source of wonderment to all who knew him; and

WHEREAS, Senator Dirksen became an institution in the United States Senate making many warm and lasting friends, with a capacity for conciliating, compromising, adjusting and harmonizing opposing view points. His counterpart in the United States Senate Senator Mike Mansfield said, "He was an old pro. His word was good. Everything was on the table. He was the great stabilizer." His death is a great loss to the State of Illinois and to the Nation, which he served so well; now, therefore,

*Be It Resolved,* That the Mayor and the members of the City Council of the City of Chicago, on behalf of the people of the City of Chicago, express their esteem for Senator Everett McKinley Dirksen and their deep regret at his passing, and extend to his family their most sincere sympathy; and

*Be It Further Resolved,* That a suitable copy of this resolution be presented to the family of Senator Everett McKinley Dirksen.

Alderman Sperling moved to *Suspend the Rules Temporarily,* to permit immediate consideration of and action upon the foregoing proposed resolution. The motion *Prevailed.*

On motion of Alderman Sperling (seconded by Alderman Hoellen) the foregoing proposed resolution was *Adopted,* unanimously, by a rising vote.

Alderman Sperling in his remarks stated that despite the beliefs in the late Senator's indestructibility, after many grevious illnesses, he had been taken. He spoke of his having left "footprints in the sands of time", because he had been a giant among men. He lauded him for his dedication and love of country. He also said that he too would be preserved in history among the other great men who had preceded him. He concluded by saying that indeed Senator Dirksen had been "a real pro".

Alderman Hoellen also spoke of the late Senator's love of his country to the extent that he put country above party. He spoke of the tremendous power he had wielded, having been a confidant to several Presidents, during the course of his term of office.

Honorable Richard J. Daley, in addressing the Council spoke of how impressed he had been to see all of the residents of Pekin, both young and old who turned out to honor their returning distinguished citizen. The Mayor paid tribute to him as being a politician in the true sense of the word. He praised him as one who could disagree but who disagreed with respect for the person with whom he might disagree. His disagreement was always with the issues, not personalities. He concluded by saying that America as well as Illinois had lost a great man.
